### Mould frame:

- |                  |                                 |             |
|------------------|---------------------------------|-------------|
| <b>95 753 12</b> | Mould frame, 120 × 120 × 50 mm  | SQ: 1 PIECE |
| <b>95 753 14</b> | Mould frame, 120 × 120 × 100 mm | SQ: 1 PIECE |
| <b>95 753 20</b> | Mould frame, ø 200 mm × 50 mm   | SQ: 3 PIECE |

### Mould frame:

Make up the frame to desired size and use masking tape to seal the inside edges. Use masking tape to secure the frame to the base sheet. Add a layer of plasticine to build the inside of the frame to the required depth. Dust with talc. Set the object to be moulded in the plasticine. Make a hole in the plasticine, to form a locating lug. Fill with silicone and when dry remove the Plasticine. Now powder the hardened silicone layer with talc and fill the remaining mould part with silicone. The talc acts as a release agent, so the mould halves can be separated easily.

SQ: 5 PIECE

### Art Transfer

Acrylic pictures painted in no time at all – With the new method for transferring motifs it is child's play even for beginners: Simply print out – rub on and apply paints. In this way fantastic pictures are created.

Print the desired motif in black onto the transfer paper using an ink-jet printer. Before transferring, a support should always be placed underneath the canvas at the exact place, where the painting is to be done. For this purpose push an aluminium sheet (creative set 18 033 00) under the stretched canvas with the flat side between the frame and the canvas, so that the angled part of the sheet is showing upwards. Turn the stretched canvas frame over and lay the printed transfer paper onto it with the printed side downwards. Then rub over the back of the paper over the area where any lines are. This works best, if the transfer tool (18 033 01) is used to press directly. If whole areas are to be transferred, it is advisable to work in alternating directions. If the motif is secured with adhesive strips only at the top or at one side, then it is possible to check whether the quality of the lines to be transferred is satisfactory. The adhesive strips on the back of the paper are of no importance when transferring, simply rub over them. Only black printing ink is transferred to the canvas. The motif can also be transferred on the following day. When the motif has been transferred exactly, remove the paper with the motif from the stretched canvas frame and start painting.
